environment
that increases
employee
satisfaction

THE
WELLNESS HABITAT
COMPANY

HEALTHY LIVING, EFFORTLESSLY

Commercial spaces can become “safe havens”, where the air that is breathed, the water that is consumed for drinking or bathing, even the surfaces that are touched, are free of contaminants and other hazardous substances.

Think of it as an
environmental detox
treatment for the places
where adults work.

COMMERCIAL OFFICE SPACE

For more information, call
305 400 0930 or visit: wellnesshabitat.com

AIR PURIFICATION

Our Sanctuous™ air filtration system is designed to turn commercial spaces into wellness sanctuaries. Whether new or retro-fitted, these systems provide an array of multi-layered, mineral-based and energy-efficient benefits.

LED HEALTHY
LIGHTING SYSTEM

Designed and engineered to adjust to the body's natural rhythms, this revolutionary system utilizes smart technology to control light intensity and synchronize brightness levels with individual behavior. This system's productivity-enhancement qualities makes it ideally suited to office workspaces.

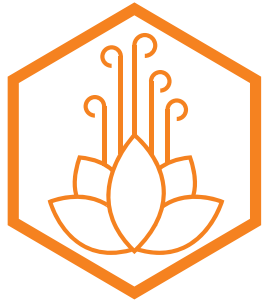

WATER FILTRATION

Our water filtration systems provide clean, pure water for drinking, cooking and showering, eliminating 99% of heavy metals and water-born chemicals. In the process, the need for expensive bottled water is also eliminated.

PAINT & PRIMER

Sourced from earth-based plant and mineral components, the Sanctuous™ brand of interior paints is durable, eco-friendly and free of toxic fumes.

AROMATHERAPY

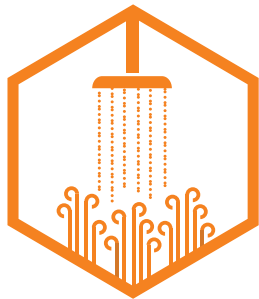

Our scent-delivery system uses advanced diffusion technology to convert plant-based liquid fragrance into dry vapor that integrates with new or existing ventilation systems.

Scent output is entirely customizable to individual preference, day or night.

ENVIROMENTAL
PROBIOTICS

Our Environmental Probiotics system emits probiotic particles into the air to target harmful bacteria, thereby reducing surface irritants and improving overall indoor air quality.

**AROMATHERAPEUTIC
SHOWER SYSTEM**

Aromatherapeutic showers protect and nourish the body by eliminating harmful pollutants and hard-water deposits, then replacing them with an infusion of organic vitamin C and collagen essences—providing a way to retain the skin’s youthful glow on a daily basis.
